

SERIOUS HEAD PROTECTION

KART SERIES

RS3-K

Specifically developed for karting, the RS3-K meets all the needs of the most demanding go-kart racers. Directly derived from the Advanced HP3 and the RS3 auto racing helmets, the RS3-K is fitted with a specific, long lasting and comfortable interior.

Its great ventilation system, very good at low speed, is regarded as the most efficient for use in karting.

- Leading edge design based on F1 helmet HP3 with lightweight composite shell.
- 3 mm shield and Bell Racing "SV" brake visor mechanism for improved comfort and safety
- Advanced aerodynamics with front chin spoiler (duck bill), and optimized top and chin bar ventilation
- Air intake, top spoiler and chin bar gurney available separately

Air Intake
available separately

Clear Spoiler
available separately

Chin Bar Gurney
available separately
